Knapstein

LINN-128

Version

- nickel
- noir

Technical details

Pays de fabrication	Allemagne
fabricant	Knapstein
concepteur	Knapstein
protection	IP20
Contenu de la livraison	LED
matériel	métal
réglage de la hauteur	réglable en hauteur
atténuation	controle gestuel
Puissance en Watt	39,5 W
LED	y compris
Indice de rendu des couleurs	>90
Flux lumineux en lm	4.492
La température de couleur en Kelvin	2.700 extra blanc chaud
remplacement des ampoules :	chez le fabricant / a l'usine
hauteur totale	106 - 188 cm
Dimensions	H 3,4 cm | B 1,6 cm | L 128 cm

Description

The Knapstein LINN-128 is a pendant lamp with a length of 128 cm. Its total height can be adjusted between 106 cm and 188 cm by stoppers on the ropes. The lamp must not be adjusted when switched on. For height adjustment, the shells are pushed in at the bottom of the stoppers, then the lamp can be pushed or pulled to the desired height. If necessary, the wire ropes can be shortened on site.

The LINN-128 from Knapstein emits its light upwards and downwards. The uplight and the downlight can be switched and dimmed separately by gesture control. The sensor area for gesture control is located centrally at the top and bottom of the lamp. The light is switched on or off with a wiping hand movement in the sensor area. Holding the hand in the sensor area for a longer period of time allows the lamp to be dimmed continuously. The last light intensity setting is saved by the memory function and is automatically adjusted the next time the light is switched on.

The LINN-128 is available in the versions matt nickel and black. In addition to this pendant lamp, the collection also includes LINN pendant lamps with a length of 68 cm or 161 cm and with height adjustment by lifting or pulling the lamp itself (LINN-L). The LINN is also available in other lengths or finishes on request.
