<b>height adjustment</b>	height determinable
<b>dimming</b>	cord dimmer
<b>Shade diameter</b>	46 cm
<b>Shade height</b>	29 cm
<b>lamp stand dimensions</b>	60 cm
<b>light distribution</b>	directly and indirectly
<b>Dimensions</b>	H 212 - 224 cm

## Description

The Foscarini Twiggy Terra is a lighting classic of the designer Marc Sadler. The composite material consisting of fiber-based for the lamp shade is attached to a flexible light arm that can be height-adjusted as needed by means of counterweights. The floor lamp has the shape of an arc lamp.

Applications of this floor lamp is broad: Whether as light in the seating area, a reading lamp next to a armchair or as an oversized desk lamp. The Foscarini floor lamp is available in the colours: white, crimson red, greige (a mixture of grey and beige), graphite and black. The light is also offered in different versions as a halogen or as an LED version. Both versions have a cord dimmer. For the extension of height and projection of the light extension arms can be used (available upon request), each of which is 40 cm high. The shade emits lights downwards and upwards.
