

Byok

Nastrino wall lamp

Oberfläche

- matt aluminum
- matt black

Technical details

Country of Manufacture	 Germany
Manufacturer	Byok
Designer	Kai Byok
protection	IP20
Scope of delivery	LED
Projection in cm	55
material	aluminum
cable length	300 cm
dimming	gesture control
LED	replaced by professional
Colour Rendering Index	90
Color temperature in Kelvin	Dim to warm
system performance	2 x 3.6 Watt
Total luminous flux in lm	610
light distribution	directly
Dimensions	H 60 cm

Description

The Byok Nastrino wall lamp is equipped with high-quality LED technics, combined with two dazzle-free light zones, to create the ideal working light. This is underlined by the well designed joint technics. Due to the sophisticated joint technique of the Nastrino family, it can be adjusted in a variety of ways, thus aligning the light exactly there, where it is needed.

The design consists of simple ground aluminium profiles. Different surfaces are on offer: matt aluminum and matt alu black. The Nastrino wall lamp ensure ideal light whether it is mounted beside the couch or the chair as an efficient reading light or in the office next to the desk. It is dimmed with gesture control. During dimming thanks to the Dim2Warm technology, the light takes on a warmer colour, changing the light colour of the LEDs from 2,700 Kelvin extra warm white to 2,100 Kelvin warm white.
