Description

The Vibia Skan 0280 is a pendant lamp with three lamp shades. From a round canopy with 51 cm diameter, these three lamp shades hang, each 30 cm in diameter. In each of these lamp shades one efficient 9.3 watt LED is installed. Each lamp shade is determinable in total height up to 200 cm. This pendant lamp is created of the design team Lievore, Altherr and Molina. As colours white, beige, blue, green, terra red or black are offered. This lamp is dimmable on site with 1-10 Volt or Push. On request, there are also offered versions which can be dimmed with Casambi module via a smartphone or which are DALI dimmable. With a Casambi module, it is possible to operate the lamp via smartphone or tablet using the Casambi app via Bluetooth. Casambi technology also offers the option of switching the light on at specific times via a timer. The light is also available on request with a colour temperature of 3,000 Kelvin warm white or 4,000 Kelvin white or with a special cable length.
