

Vibia

Set 7752

Oberfläche

- mink matt
- white matt

Technical details

Country of Manufacture	 Spain
Manufacturer	Vibia
Designer	Xuclà
protection	IP20
Scope of delivery	LED
Depth in cm	10
material	aluminum, Borosilicate glass, polycarbonate
dimming	0-10V dimmable
Wattage	9 W
LED	inclusive
Colour Rendering Index	>90
Luminous flux in lm	1,269
Color temperature in Kelvin	2,700 extra warm white
Dimensions	H 40 cm B 30 cm

Description

The Vibia Set 7752 is a combination of a single lamp LED Wall and three mobile, reflecting elements. At the bottom of the lamp a modern 9 watt LED is housed, which radiates its light upwards. The three upper parts of the set 7752 can be pivoted about 360°. So the light of the lower part can always derive differently and there is a game of light and shadow.

The Vibia Set 7752 is designed by Xuclà and is offered by Vibia in the surfaces white matt and mink-matt. The wall lamp can be dimmed on site with 0-10 volts. As standard, this lamp has a colour temperature of 2,700 Kelvin extra warm white; on request, it is also available with 3,000 Kelvin warm white or 4,000 Kelvin white. As a single lamp the Set 7752 is already a very good impression on the wall. But you can also easily combine it with other Set lights. Then fascinating light objects arise on the wall.
