### Description

The Vibia Cosmos 2511 is a lamp consisting of three, round, disc-shaped lamp shades made of polycarbonate in various sizes and colours. The smallest lamp shade measures 19 cm in diameter and is dark brown matt, the middle is 27 cm in diameter as well as green matt or light grey matt and the largest lamp shade is 48 cm in size as well as white matt. The medium-sized lamp shade is available in matt green or light grey matt.

The three lamp shades can be suspended up to a maximum of 200 cm. Three modern 4.5 watt LEDs and one 1 watt LED are included. The Cosmos 2511 is a three-lighted pendant lamp, which is reminiscent of a constellation of different moons. The light can be dimmed on site by an external dimmer (DALI, push or 1-10 Volt). A with Casambi module dimmable version is also available on request. The lamp with Casambi module can be operated via smartphone or tablet using the Casambi app via Bluetooth. Casambi technology also offers the option of switching the light on at specific times via a timer. The lamp was designed by Lievore, Altherr and Molina.
