### Description

This Licht im Raum Ocular 3 Spot is a three-light ceiling and wall spot light. The three lenses are swivelable as well as rotatable. The light is bundled by the lenses and directed to the desired location. The lenses can also be zoomed in or out. The zoom function allows the beam angle to be varied between 30 and 60 degrees. With a smaller value for the beam angle, the light cone becomes narrower; with a larger value, it becomes wider.

For the light made of stainless steel, the two surfaces satin nickel-plated and polished are offered. The lamp can be dimmed on site (1-10 Volt) and is equipped with three LEDs.
