### Description

The Licht im Raum Ocular Spot 2 semi-recessed has a rectangular recess box, which is installed into the wall or ceiling. Two LEDs with a beam angle of 60 ° are integrated. This light can also be dimmed on site. The lamp made of stainless steel is available in polished or mat nickel-plated.

The two swiveling glass lenses bundle the light and direct it to the desired location. The rotating and tilting hinge of the lamp allows flexible lighting.
