### Description

The Licht im Raum Ocular Spot 1 Serie 100 Zoom has a lens with a diameter of 100 mm, so this is the more light intensifier of two ceiling radiators of this series with a rectangular ceiling mount. The lens is pivotable as well as rotatable and can be zoomed in and out at the same time. Thus, the beam angle can be varied from 50 to 70 degrees.

The spotlight can also be used as a wall spotlight. The lamp body made of stainless steel is available in satin nickel-plated or polished. The light can be dimmed on site.
