Projection in cm 22

material glass, metal, stainless Steel

**dimming** dimmable on site

**LED** inclusive

Color temperature in 2,700 extra warm white

**Lens diameter** 100 mm

system performance 1 x 17.1 Watt Downlight + 1 x 4.7 Watt

Uplight

Total luminous flux in lm 2,987

**Dimensions** H 45 cm | B 20 cm

### **Description**

The Licht im Raum Wall Lamp Glass Series 100 LED is an LED wall lamp with a wall bracket made of glass. The lamp is 45 cm high. Its lens can be swivelled and has a diameter of 100 mm. Thus, it produces more light than the conventional Ocular Wall Light Glass LED.

The light is focused by the lens and can thus be directed to the desired spot. An LED with an output of 17.1 watts directs its light downwards through the lens, another LED with an output of 4.7 watts directs light upwards. The wall lamp is suitable for both private and commercial use. The wall mounting made of glass is available in white, anthracite, violet and red.
