<b>system performance</b>	2 x 17.1 Watt
<b>Total luminous flux in lm</b>	4,708
<b>Dimensions</b>	H 17 cm   L 24 cm

### Description

The Licht im Raum Ocular Spot 2 Series 100 has rotating and tilting joints with which the light heads can be rotated as desired. The lenses have a diameter of 100 mm and are swivelable in the heads. The two-lamp ceiling spotlight can also be used as a wall spotlight. The light is bundled through the glass lenses and directed precisely to the right place. This is the larger and light-intensified spot lamp out of two variants.

Two LEDs with a beam angle of 70 degrees are integrated. The lamp made of stainless steel is offered in the surfaces matt nickel-plated and polished. The wall holder has a rectangular shape.
