## Flamingo 1515

### Version

- gold
- Graphite-grey
- copper
- white

### Technical details

<b>Country of Manufacture</b>	 Spain
<b>Manufacturer</b>	Vibia
<b>Designer</b>	Antoni Arola
<b>Year of design</b>	2015
<b>protection</b>	IP20
<b>Scope of delivery</b>	LED
<b>material</b>	acrylic, aluminum, methacrylate, steel
<b>height adjustment</b>	height determinable
<b>dimming</b>	cord dimmer
<b>LED</b>	inclusive
<b>Colour Rendering Index</b>	>90
<b>Luminous flux in lm</b>	1,108
<b>Color temperature in Kelvin</b>	2,700 extra warm white
<b>canopy dimensions</b>	16 cm
<b>Shade diameter</b>	70 cm
<b>system performance</b>	2 x 5.6 Watt
<b>total height</b>	500 cm
<b>Dimensions</b>	H 80 cm

### Description

Vibia Flamingo 1515 emits direct and indirect light. The light source is located in a lamp head below the two conical shades. The translucent shades let a part of the light go through and also reflect a part of the light into the room. A cable is integrated into the lamp head, with which the pendant light can be connected independently of the current outlet. The lamp head also carries a cable from which a counterweight hangs approximately 2 cm above the floor. The lamp head, the counter-weight as well as the canopy are available in gold satin matt, white matt lacquered, graphite-grey matt lacquered and copper glossy. The pendant lamp can be adjusted in height by shortening the cables if required.

A dimmer is integrated on the supply cable with which the light is dimmed and switched. The light is switched on and off by pressing the switch quickly, and a longer press sets the light intensity. There is also available the same lamp as with a direct ceiling connection.
