### Description

This Catellani & Smith Fil de Fer 100 is an LED pendant light, which is shaped like a sphere. It is available in two surfaces: natural aluminum or gold. The lamp with the surface natural aluminum is made of untreated aluminum wire and therefore acts silver. For the golden version, the aluminum wire is anodized in gold. The diameter is for this lamp 100 cm.

As lamps, 24 LED lamps are used with a power of 1 watts. The Fil de Fer 100 Pendant LED 100 is on site dimmable. The dome-shaped canopy has dimensions of 21 x 10.5 cm. The cable of this light is available in a length of 170 cm, but can be shortened if necessary.
