Description

The Vibia Pin 1655 table lamp is a new interpretation of the two concepts of room lighting and reading light. The lamp has a lamp arm with a reach of 40 cm. The lamp rod of the table lamp can be rotated by 350 degrees. Its light head can be swivelled by an angle of 45 degrees and rotated by 350 degrees around its own axis. An LED is integrated in the lamp head. These surfaces are available: green, white, black and cream-white. All surfaces are matt lacquered. The table lamp can be regulated with an on/off switch on the lamp base.
