## Description

The Stilnovo Oxygen P pendant lamp has a characteristic shape with high recognition value. In the inner, upper part of the lamp shade is a diffuser with laser-engraved micro-incisions. This directs the light emitted by the LEDs equally upwards and downwards. When switched off, the diffuser appears almost transparent thanks to OptiLight technology. This pendant light is available in white, black, yellow and azure blue. From the inside, the shade is always white. This lamp is also available with a diameter of 56 cm or with 75 cm. The three steel cables can be shortened if required. With protection class IP40, the pendant lamp is protected against solid foreign objects with a diameter of at least 1 mm. The light can be dimmed on site, with an optionally available Casambi module it can also be dimmed via Smartphone App.
