Color temperature in Kelvin 3,000 warm white **system performance** 1 x 9 + 1 x 15 Watt

Dimensions H 21 cm | B 37 cm | L 120 cm

Description

The Vibia Structural 2640 is a ceiling light consisting of a 120 cm long light rod and two lamps. The two lamps are of different sizes and both emit their light directly downwards. Arik Levy designed the Structural ceiling lights for Vibia. This lamp immerses the room in a powerful light full of magic. This ceiling lamp is available in the surfaces light grey and dark grey. All versions are matt lacquered. The light can be dimmed by the customer with 1-10 volt. On request, DALI dimmable versions or versions are also available, which can be dimmed with an optionally available Casambi module via a smartphone app. The lamp with Casambi module can be operated via smartphone or tablet using the Casambi app via Bluetooth. Casambi technology also offers the option of switching the light on at specific times via a timer. The light is also available with a colour temperature of 4,000 Kelvin white.
