#### Description

The Marset Mercer table lamp has a total height of 53 cm and consists of a cylinder made of mouth-blown transparent glass. A cotton textile shade is integrated in the upper half of the body. The shade has a diameter of approx. 36 cm and is available in natural or pearl white cotton ribbon. An opal diffuser is attached to the shade so that the light is also emitted glare-free upwards. In addition, the lamp radiates its light to the sides and downwards. The Mercer table lamp can be operated with a compact fluorescent lamp. The brightness can be regulated via a dimmer on the supply line.
