Casambi module for high-voltage LED + LED board

Technical details

Country of Manufacture

 Germany

Manufacturer

Escale

Description

The Escale Casambi module for high-voltage LED + LED board is used to regulate LEDs via an app for your smartphone or tablet (IOS, Android) via Bluetooth. With the free Casambi App, LED lamps can be infinitely controlled in brightness. Individual lighting scenarios can also be set. The Casambi module can be controlled via existing light switches.
