### Description

The Ingo Maurer Canned Light LED has a Campbell's Tomato Soup can as a light shade. This is a tribute to the famous image of Andy Warhol. Inside, a replaceable LED retrofit is to be integrated. This light can be used as a pendant or wall light. The height of the pendant lamp can be infinitely adjusted with a pulley and an adjustment ring. The Canned Light LED is suitable for surface or flush mounting as well as with power cord and switch. The cable has a standard length of 200 cm and can be shortened if necessary.
