## Wittenberg 4.0 ceiling lamp semi-flush LED

### Oberfläche

- black
- white

### Technical details

<b>Country of Manufacture</b>	 Germany
<b>Manufacturer</b>	Mawa
<b>Designer</b>	Jan Dinnebier
<b>Designer 2</b>	mawa engineering
<b>protection</b>	IP20
<b>Scope of delivery</b>	LED
<b>material</b>	aluminum, metal
<b>beam angle</b>	38 degrees
<b>dimming</b>	dimmable with a trailing edge dimmer and with a leading edge dimmer
<b>Wattage</b>	12.7 W
<b>LED</b>	inclusive
<b>Colour Rendering Index</b>	95
<b>Luminous flux in lm</b>	1,100
<b>Color temperature in Kelvin</b>	2,700 extra warm white
<b>light head dimensions</b>	8 cm
<b>bulb exchange</b>	on site itself
<b>light distribution</b>	directly
<b>Dimensions</b>	H 9 cm   B 10 cm   L 10 cm

### Description

The Mawa Wittenberg 4.0 ceiling lamp semi-flush LED has an adjustable spotlight head. This lamp head is integrated semi-flush into the rectangular ceiling housing. It can be rotated 365 degrees and swivelled 90 degrees. The large light-emitting surface of the spotlight head is well glare-free. Neither screws nor cables are visible in the compact design of the lamp. This ceiling light is available with powder-coated white matt or black matt surfaces. On request, the lamp is also offered on request with a black ceiling housing and a lamp head in chrome, brass or copper.

The integrated LED has a colour temperature of 2,700 Kelvin extra warm white, on request it is also available with 3,000 Kelvin warm white or 4,000 Kelvin white. The Wittenberg 4.0 ceiling lamp semi-flush LED can be dimmed on site with a leading or trailing edge phase dimmer, on request it is also offered as a DALI dimmable version.

The radiator has a beam angle of 38 degrees. The beam angle determines the angle at which the light from an LED spotlight is emitted. With a larger beam angle, the light is distributed over a larger area. Optionally, the lamp can also be ordered with a beam angle of 12 or 24 degrees in the field Order Comment.
