### Description

The Catellani & Smith Syphasera Set 9 consists of nine complete outdoor floor lamps ready for connection with all necessary accessories. The nine lamps can be easily connected and installed with the Catellani & Smith Quick Connectors System. Only a single power connection is required for installation. The driver included in the scope of delivery is suitable for a maximum of 30 watts and can be dimmed on site. It has a connection cable for the power connection.

All necessary plug connections are included. The set includes:

- Two lamps with a height of 65 cm
- two lamps with a height of 80 cm
- two lamps with a height of 110 cm
- three lamps with a height of 140 cm
- an extension cable with a length of 500 cm
- a driver necessary for operation.

The height specifications for the lamps (65 cm to 140 cm) are indicated without ground spike. With the ground spike each lamp can be fixed up to 25 cm into the ground. Each lamp has a cylindrical opal glass, through which the light is emitted glare-free in all directions.

The Syphasera lamps are suitable for outdoor use as they are protected to IP44 against splashing water from all sides and solid foreign bodies with a diameter of 1 mm or more. Each lamp rod is dust-tight with IP65 protection rating and protected against strong jets of water from any angle. Driver and extension cables are protected against temporary immersion with IP67 protection. Syphasera outdoor floor lamps are also available in sets of three, four or five complete lamps, which can be connected to a single power supply. In addition, a complete single lamp with a height of 65 cm, 80 cm, 110 cm or 140 cm is also available.
