protection	IP20
Scope of delivery	LED
Projection in cm	53
material	brass
dimming	Push button dimmer on light rod and push button dimmer on light head
LED	inclusive
Colour Rendering Index	>90
Color temperature in Kelvin	2,700 extra warm white
Shade diameter	24 cm
Shade height	33 cm
lamp stand dimensions	26 cm
system performance	1 x 13 Watt + 1 x 20 Watt + 1 x 8,5 Watt
Total luminous flux in lm	5,035
Dimensions	H 165 cm

Description

The Knapstein KIRA-L floor lamp has a rotating and swivelling reading arm. The lamp head of the reading arm can be swivelled independently of the arm via a joint. Two LEDs are integrated in the diffuser. One of these LEDs emits its light upwards as an uplight, the second LED emits its light downwards and through the diffuser into the room. These two LEDs can be switched and dimmed separately by push button dimmers on the lamp post. The lamp head of the reading arm is individually regulated by a push button dimmer in the head. The floor lamp is available in matt brass and matt nickel.

The diffuser of the KIRA-L has a diameter of 24 cm and a height of 33 cm. It is offered in the versions glass opal matt white, chintz white and chintz dark taupe. This floor lamp is operated by three integrated LEDs. In addition to this LED floor lamp, the series also includes lamps with conventional halogen sockets or without reading arm.
