<b>switchability</b>	On the wall bracket
<b>Power (max. Watt)</b>	7 Watt
<b>light head dimensions</b>	5 cm, height 9 cm
<b>bulb exchange</b>	on site itself
<b>Wall mount dimensions</b>	7 cm

### Description

The Knapstein VADA wall lamp has a flexible reading arm that can be realigned at any time. The reading arm has a maximum projection of 44 cm. The lamp head of the reading arm is made of white satinised lead crystal glass. The light is thus emitted directly and glare-free into the room. The Knapstein VADA is available in the following surfaces: brass matt, brass polished-matt and nickel matt. The surface of the version brass polished-matt is partly polished and partly matt. The wall bracket is always supplied with the surface finish matching the lamp. An on/off switch is integrated on the wall bracket. A replaceable LED lamp can be used for the G9 socket.
