#### Description

The anthracite-coloured SLV Enola Round L CL is made of aluminium and emits its light glare-free through a glass lens directly downwards. This cylindrical LED ceiling light with an output of 35 watts has a diameter of 14 cm and a height of 22.3 cm. Integrated in the ceiling bracket of the SLV Enola Round L CL is a switch (CCT Switch) with which the colour temperature of the lamp can be changed from 3000 Kelvin warm white to 4000 Kelvin white during installation if required. With IP65 protection, the Enola Round L CL by SLV is ideal as an outdoor lamp, as it is dust-proof and protected against water jets from any angle.
