

Grupa

Baluna Ceiling

Technical details

Country of Manufacture	 Croatia
Manufacturer	Grupa
protection	IP20
Scope of delivery	LED 230 Volt
material	opal glass, steel
surface	black
cable length	500 cm
height adjustment	height adjustable
dimming	at the suspension
socket/light fixture	E14
Power (max. Watt)	6 Watt
LED	inclusive
canopy dimensions	9 cm
Shade diameter	20 cm
bulb exchange	on site itself
Dimensions	H 136 - 203 cm

Description

The Grupa Baluna Ceiling is a height-adjustable ceiling lamp. It can be adjusted in height between 136 cm and 200 cm. Its glass shade can be rotated 360 degrees around its own axis. It is made of triple-coated and mouth-blown opal glass. The lamp shade has a diameter of 19.7 cm. Directly above the shade is a built-in dimmer at the end of the suspension.

The ceiling suspension of the Baluna Ceiling and the canopy are made of black, powder-coated steel. They are finished and assembled by hand. The lamp is available in other finishes on request. The Baluna Ceiling can be connected via a supply cable with a length of 500 cm. When mounted on a ceiling connection, the supply cable can also be removed if required.
