### Description

The Mawa Tadeo 1 table lamp emits its light glare-free upwards and downwards at the same time. It is made of powder-coated aluminum and is available in the surfaces black matt, red, beige, blue and grey. On request, the lamp is also available in other RAL colours. An LED with a colour temperature of 2,700 Kelvin extra warm white is integrated as the light source.

The Tadeo 1 is switched and continuously dimmed via a push button dimmer on the base of the lamp. The lamp is switched on or off by briefly pressing the push button dimmer once. The light can be dimmed continuously by pressing the button longer. A memory function saves the last set light intensity and automatically selects it again the next time the light is switched on. Mawa also offers the Tadeo 2, which only distributes its light directly downwards.
