## Santo Terra

### Version

- aluminum
- bronze
- black
- white

### Technical details

<b>Country of Manufacture</b>	 Germany
<b>Manufacturer</b>	LDM
<b>protection</b>	IP20
<b>Scope of delivery</b>	LED
<b>material</b>	aluminum, chrome
<b>beam angle</b>	124 degrees
<b>dimming</b>	Sensor dimmer on the light head
<b>Wattage</b>	14.5 W
<b>LED</b>	inclusive
<b>Colour Rendering Index</b>	>95
<b>Luminous flux in lm</b>	600
<b>Color temperature in Kelvin</b>	2,850 warm white
<b>lamp stand dimensions</b>	25 cm
<b>light head dimensions</b>	length 55 cm
<b>bulb exchange</b>	at the manufacturer / at the factory
<b>Dimensions</b>	H 160 cm

### Description

The LDM Santo Terra is an adjustable floor lamp. Its lamp head has a length of 55 cm and can be swivelled by 180 degrees at the joint as well as rotated by 350 degrees. With a practical handle on the lamp head, the light can be directed exactly where it is needed. The lamp head is also individually height-adjustable along the lamp rod.

The Santo Terra is available in aluminum polished and powder-coated in bronze, white matt or black matt. The lamp head has the corresponding surface. The lamp rod is always supplied in polished chrome. The external spiral cable is a special design element that flexibly adapts to any desired height of the lamp head.

The Santo Terra by LDM is operated with an integrated LED that has a colour temperature of 2,850 Kelvin warm white. With a sensor dimmer on top of the lamp head, the floor lamp can be switched and dimmed without touching it. The lamp is switched on or off with a wiping hand movement over the sensor. To dim the light, the hand is held directly over the sensor for a longer period of time.
