<b>Scope of delivery</b>	LED
<b>material</b>	aluminum
<b>cable length</b>	200 cm
<b>dimming</b>	Micro button switch on the light
<b>Wattage</b>	17.4 W
<b>LED</b>	inclusive
<b>Luminous flux in lm</b>	840
<b>Color temperature in Kelvin</b>	2,700 - 6,000 adjustable
<b>bulb exchange</b>	on site itself
<b>Dimensions</b>	H 4 cm   B 9 cm   L 120 cm

### Description

The Avion wall lamp by the German manufacturer Gera Leuchten has a 4-stage swivel range that allows the emitted light to highlight different wall areas depending on the setting. In four selectable steps (4-stage by 69 degrees), the LED lamp can be adjusted to illuminate wall areas of different sizes underneath it. This wall light is in the surface aluminium-coloured. The Avion wall lamp by Gera Leuchten is 120 cm long, 8.8 cm wide and 4 cm high. The lamp connection is located in the centre, directly at the connection terminal. The lamp can be dimmed and the colour temperature adjusted from 2,700 Kelvin extra warm white to 6,000 Kelvin cool white via an integrated micro-knob switch. The scope of delivery also includes a two-metre plug-in cable.
