## Pila Pendant Lamp

### Technical details

<b>Country of Manufacture</b>	 Germany
<b>Manufacturer</b>	Domus
<b>Year of design</b>	1997
<b>protection</b>	IP20
<b>Scope of delivery</b>	Leuchtmittel/ Bulb
<b>material</b>	Lunopal, wood
<b>cable color</b>	black
<b>cable length</b>	200 cm
<b>height adjustment</b>	height determinable
<b>dimming</b>	dimmable on site
<b>socket/light fixture</b>	E27
<b>Power (max. Watt)</b>	75 Watt
<b>shade color</b>	white
<b>Shade diameter</b>	30 cm
<b>Shade height</b>	22 cm

### Description

The eye-catcher of this pendant lamp is the elegantly curved arch, which is made from a single solid piece of wood in many working steps. This arch made of beech wood holds the two-part white lampshade made of Lunopal. Lunopal is a high-quality shade material developed by Domus. This material is thermally highly resilient and can withstand temperatures of up to 100°C. Lunopal is white transparent and gives the impression of fine Japanese paper. The environmentally friendly material is UV-resistant, washable and does not yellow. The black 200 cm long textile cable of this height-adjustable lamp deliberately contrasts with the white lampshade. The white lamp shade of the Domus Pila pendant lamp is 22 cm high and has a diameter of 30 cm. The Pila pendant lamp has an E27 socket and can be operated with conventional halogen bulbs as well as with LED retrofit bulbs.
