| Color temperature in Kelvin | 2,700 extra warm white |
| Shade height | 39 cm |
| bulb exchange | at the manufacturer / at the factory |
| Dimensions | H 48 cm Ø 26 cm |

Description

The Bover Nans Portable M/49 Outdoor table lamp has a lamp shade made of a hand-woven, synthetic polyethylene fibre. It is 48.4 cm high in total and has a diameter of 25.8 cm. This lamp is supplied with a 390 cm long cable and can be taken anywhere with its practical handle. The Nans series also offers battery lamps that can be operated wirelessly, e.g. the Portable M/49/R Outdoor. In addition, the smaller Nans Portable M/41 Outdoor with cable and a total height of 40.5 cm is also offered. The synthetic polyethylene fibre of the lamp shade is so resistant and weatherproof that this lamp is also suitable as an outdoor lamp. With a protection rating of IP65, the table lamp is dustproof and protected against water jets from any angle. The light is emitted sideways and downwards, creating light reflections around the lamp.

The Nans Portable M/49 Outdoor is offered with a lamp shade in the colours red, brown and beige. The upper part of the lamp including the handle is always in graphite brown. The table lamp is operated with an integrated LED that has a colour temperature of 2,700 Kelvin extra warm white. On top of the lamp is a push button dimmer, which can be used to switch the lamp and dim it in three brightness levels.

Cala Nans is a small bay in Cadaques (Spain) that can only be reached by footpaths or by sea. An unspoilt corner of the Mediterranean, where vegetation and the vigilance of an old lighthouse make this place a primordial spot where all you can hear is the sound of the sea and the birds flying over the coast. The Nans lamp is characterised by high-quality craftsmanship of the lamp shades and creates a true Mediterranean style.
