

Domus

LARafelt Pendant Lamp L indigo

Technical details

Country of Manufacture	 Germany
Manufacturer	Domus
Year of design	2015
protection	IP20
Scope of delivery	LED
material	acrylic glass, felt, metal, steel, Textile, wood
cable color	grey
cable length	200 cm
height adjustment	height determinable
dimming	on site dimmable with a trailing edge dimmer
Wattage	25 W
LED	inclusive
Colour Rendering Index	>92
Luminous flux in lm	3,100
Color temperature in Kelvin	2,700 extra warm white
canopy dimensions	17 cm
Shade diameter	55 cm
Shade height	13 cm

Description

The Domus LARafelt Pendant Lamp L indigo can be individually set in total height during assembly. Its lamp shade has a diameter of 55 cm and is 13 cm high. The light is emitted by the pendant lamp mainly downwards, upwards it is mostly dimmed. The view into the inside of the lamp is particularly beautiful, where the wool felt is shown to advantage by the low diffuser. The lamp shade of this pendant lamp is covered with indigo coloured wool felt. From the inside, the lamp shade has the colour cinnamon. From the LARafelt series, there are also pendant lamps with a lamp shade in grey felt (different shade inside colours available) or red felt (shade inside colour wool white).

The LARafelt Pendant Lamp L is operated with a powerful LED that has a colour temperature of 2,700 Kelvin extra warm white. The integrated LED is characterised by very good colour rendering with a high colour rendering index of Ra > 92. Pendant lamps with a shade diameter of 20 cm or 43 cm are also available from the LARafelt series.
