### Description

The Loom Design Modi Floor is a battery-powered floor lamp, manufactured in aluminium with a classic shade. The floor lamp has an elegant and minimalist design that makes this stylish lamp perfect in many modern rooms and environments. In addition to Modi Floor White, this lamp is also available in a beautiful, black version - Modi Floor Black – as well as table lamps in several modern colours. This makes it easy to use Modi lamps across different rooms and interiors. Classical... and yet not. Modi Floor has a beautiful design that is classic and elegant. However, this battery-powered floor lamp is by no means just any old classic floor lamp. On the contrary, the Modi floor lamp has integrated LED lighting as well as IP65 rating that makes it suitable for use as both an indoor and outdoor lamp. With up and down-facing lighting, adjustable brightness (5-100%) and RGB lights in 7 different colours (red, green, blue, yellow, orange, dark blue and violet) this lamp gives ample opportunity for exciting and decorative lighting that can be adapted to different rooms, purposes and moods. However, it doesn't stop there! The Loom Design Modi Floor has a smart touch dimmer on the bar with memory for brightness, colour temperature and RGB. With up to 9 hours of battery life and a smart power level indicator on the rod, you always know when it's time to charge its elegant battery lamp via the included USB charging base.
