Description

The Knapstein STELLA has a diameter of 42 cm and is 14.5 cm high. The rotating disc for the top light has a diameter of 18 cm. The lamp is 50 cm long in total. Four LEDs, each with a colour temperature of 2,700 Kelvin extra warm white and an output of 10 watts each, are integrated as light sources. The lamp can be switched using a wall switch or dimmed using a wall dimmer. With the appropriate connection, the uplight and downlight can be switched and dimmed separately. A magnetic holder ensures that no screw connections are visible. The Knapstein STELLA is available in several surfaces.
