Description

With 2600 lumens and a colour rendering index of >90, the Holtkötter Supernova T leaves nothing to be desired in terms of the light it emits. The height of the LED table lamp with swivelling and tilting lamp head can be adjusted using the integrated, invisible lift mechanism. The centrally positioned touch dimmer near the reflector allows the light to be continuously adjusted according to the situation. The Holtkötter Supernova T is available in matt aluminium, anodised brass, platinum, white and black.
