

Vibia

Set 7750

Oberfläche

- mink mate
- blanco mate

Technical details

País de la Fabricación	 España
fabricante	Vibia
diseñador	Xuclà
protección	IP20
Volumen de suministro	Lámpara
Profundidad en cm	10
material	aluminio, policarbonato, vidrio borosilicato
Atenuación	0-10V regulable
Potencia en vatios	9 W
LED	incluyendo
Indice de reproduccion cromatica	>90
El flujo luminoso en lm	1.269
Temperatura de color en grados Kelvin	2.700 extra blanco cálido
Dimensions	H 21 cm B 18 cm

Descripción

The Vibia Set 7750 is a single-lamp LED wall light with a diffuser made of borosilicate glass. At the bottom of the lamp a 9 watt LED is housed, which radiates its light upwards. The top of the Set 7750 is rotated 360°. So the light of the lower part can always derive differently and there a play of light and shadow is generated.

The Set 7750 was designed by Xuclà and it is available by Vibia in the surfaces in white matt and mink matt. The wall lamp is on site dimmable with 0-10 Volt. As standard, this lamp has a colour temperature of 2,700 Kelvin extra warm white; on request, it is also available with 3,000 Kelvin warm white or 4,000 Kelvin white. As a single lamp it can be use due to its small size and its simple design virtually anywhere. The lamp can also be used in combination with other Set lights.
