Descripción

The Bahia Parete is a white pendant lamp by Foscarini. It is composed of three superimposed plates made of matt white polycarbonate. These are produced by injection molding and have a different shape and size. The largest plate which serves as a wall bracket has a height of 76 cm with a width of 70 cm and a depth of 10 cm. Depending on requirements, the light can be hanged the other way round.

The light of Bahia Parete is discharged reflected back to the wall and also diffusely into the room. The front plate of the wall lamp appears darker than the others because it itself does not transmit light to the front.

The lamp is available both as non-dimmable version and as a DALI dimmable version. In both versions, an LED is integrated as the light source.
