Descripción

This Vibia Wireflow is a volumetric pendant lamp with glass diffusers designed by Arik Levy. This Wireflow 3D interprets the aesthetics of a chandelier in a new way. Its components, a black cable and integrated 4.5 watt LEDs, have become the trademark of this unique collection. The cables create three-dimensional geometries, creating a transparency effect that makes up the lamp's graphics. The pendant light is height-determinable and can be dimmed by the customer.

This lamp is available in 5 sizes:
