

Catellani & Smith

Fil de Fer Pendant LED 50

Oberfläche

- aluminio natural
- oro

Technical details

País de la Fabricación	 Italia
fabricante	Catellani & Smith
diseñador	Enzo Catellani
año	2002
protección	IP20
Volumen de suministro	LED
Diámetro en cm	50
material	aluminio
longitud del cable	170 cm
ajuste de altura	altura determinada
Atenuación	Regulable en el sitio con control de fase inversa
base/porta lámparas	G4
LED	incluyendo
Indice de reproducción cromática	80
Temperatura de color en grados Kelvin	2.700 extra blanco cálido
Dimensiones del dosel	21 cm
reemplazo de la bombilla:	en el sitio mismo
El rendimiento del sistema	12 x 1 Watt
Flujo total luminoso en lm	900
Dimensions	Ø 50 cm

Descripción

The Catellani & Smith Fil de Fer Pendant LED 50 is a pendant lamp that consists of a mesh of aluminum wire in the form of a sphere. This pendant light is offered in two surfaces: natural aluminum or gold. In the version in natural aluminum the wire is untreated and thus appears silver. In the golden variant, the aluminum was anodized in gold. In the sphere itself twelve LED lamps are installed so that the light seems to glow from the inside to the outside.

This lamp has a diameter of 50 cm. The Fil de Fer Pendant LED 50 is equipped with twelve LED lamps, each with 1 watts of power. It is on site dimmable. This lamp has a dome-shaped canopy measuring 21 x 10.5 cm. The supplied cable is 170 cm long and can be shortened when required.
