Diámetro en cm	73
material	acero, aluminio, metacrilato
Atenuación	1-10V regulable
Potencia en vatios	55,3 W
LED	incluyendo
Indice de reproduccion cromatica	>90
Dimensions	H 7 cm Ø 73 cm

Descripción

The Vibia Up 4442 was designed by the Designer Duo Ramos & Bassols with a round diffuser made of polycarbonate. This ceiling lamp is available in graphite grey matt or white matt. It measures 73 cm in diameter and is ideal for widespread lighting installations.

Select for the Up 4442 between two colour temperature: 2,700 extra warm white or 4,000 Kelvin white.

The collection has one only 7 cm high structure in which its complete equipment is integrated. The lamp features a new LED system for a particularly flat light scattering. A modern LED with a power of 55.3 watts, electronically adjustable from 1-10V is included.
