fabricante	Serien Lighting
diseñador	Uwe Fischer
protección	IP20
material	aluminio, crista vidriol, vidrio
Atenuación	dimmbable con control de fase inversa y con reguladores de control de fase
Indice de reproduccion cromatica	>97
reemplazo de la bombilla:	en el sitio mismo

Descripción

This Serien Lighting Annex LED ceiling light has a clear, mouth-blown glass shade and a reflector made of crystal glass. The light is emitted directly downwards and through the reflector upwards and to the side. The reflector inside the clear shade creates a decorative lighting effect on the ceiling around the lamp.

The Annex Ceiling LED is offered in three sizes: Small with 14 cm diameter, Medium with 22 cm diameter and Large with 27,5 cm diameter. In each size, this lamp is operated with an integrated LED. Depending on the size, the integrated LED has a different output. This lamp is available with a colour temperature of 2,700 Kelvin extra warm white or 3,000 Kelvin warm white. As standard, the ceiling lamp can be dimmed on site with a trailing edge and / or leading edge phase dimmer.

On request, the Medium and Large versions are also available as DALI dimmable versions. These require a 5-wire mains supply cable. In addition to this ceiling lamp, lamps with other reflectors from the Annex series are also available. These have a different light distribution. In addition, the Annex Ceiling Halogen with sockets for halogen lamps is also available from the Annex series.
