### Descripción

The Globe 727 is a wall lamp of the manufacturer Oluce. The original concept was designed from Joe Colombo and was reinterpreted by Oluce in 2015. From the round wall mount of satined nickel-plated metal protrudes a curved light arm made of metal into the room. This arm ends in a transparent sphere made of blown glass, inside which a metal lamp body is included. The lamp body is mounted in the glass sphere and has a satined nickel surface. The halogen bulb has a maximum output of 40 watts.
