### Descripción

The Catellani & Smith Light Stick T is a table lamp with a lamp rod with LEDs. Its base has a diameter as well as a height of 7 cm. It is equipped with six 1 Watt LED lamps in extra warm white with 2,700 Kelvin. This lamp is available with two surfaces for the lamp rod: nickel-plated and satin gold-plated.

The table lamp has a dimmer on the cord and can thus be operated easily. With a memory function, the last brightness setting is saved and automatically reset when switched on again. The built-in LEDs can be, if necessary, replaced. The light rod is made for both versions of plated copper. For the nickel version, the lamp base is made of burnished metal, for the gold version the base is black. The height of the table lamp is at 83 cm. Catellani & Smith has created with this lamp from the Eco-Logic-Light collection, an energy efficient table lamp.
