

Anglepoise

Original 1227 Lamp with Wall Bracket

Oberfläche

- cromo
- negro
- gris
- blanco

Technical details

País de la Fabricación	 Reino Unido
fabricante	Anglepoise
diseñador	George Carwardine
año	2012
protección	IP20
Volumen de suministro	LED 230 Volt
Proyección en cm	88
material	aluminio, Hierro fundido, Textil
longitud del cable	200 cm
Atenuación	Regulable en el sitio
base/porta lámparas	E27
conmutabilidad	en la delantera
Alimentación (máx. Watt)	20 Watt
LED	incluyendo
Diamètre de l'ombre	14 cm
Altura de pantalla	16 cm
reemplazo de la bombilla:	en el sitio mismo
distribución de la luz	directamente
Dimensions	H 55 cm

Descripción

The Anglepoise Original 1227 Lamp with Wall Bracket is a wall lamp with a movable articulated arm. Thanks to proven tension spring technology, the articulated arm can be readjusted again and again. Cause of this, it also retains any set position. The wall mounted lamp is given additional flexibility by the rotatable and tiltable lamp shade. Both the lamp shade and the articulated arm are made of aluminum. The wall bracket is made of cast iron. Industrial designer George Carwardine developed the tension spring technology used in this lamp back in the 1930s. Since then it has been used in numerous Anglepoise lights. The surfaces bright chrome, linen white, dove grey and jet black are available. The lamp can be connected via a cable with plug. An on/off switch is integrated on the 200 cm long textile braided cable. The wall light can be operated with LED retrofit lamps or compact fluorescent lamps. A table base in the matching surface is included in the scope of delivery.
