Original 1227 Lamp with Desk Clamp

Oberfläche

- cromo
- negro
- gris
- blanco

Technical details

País de la Fabricación	 Reino Unido
fabricante	Anglepoise
diseñador	George Carwardine
año	1935
protección	IP20
Volumen de suministro	LED 230 Volt
Proyección en cm	72
material	aluminio, Hierro fundido, Textil
longitud del cable	200 cm
Atenuación	Regulable en el sitio
base/porta lámparas	E27
conmutabilidad	en la delantera
Alimentación (máx. Watt)	20 Watt
LED	incluyendo
Diamètre de l'ombre	16 cm
Altura de pantalla	14 cm
reemplazo de la bombilla:	en el sitio mismo
distribución de la luz	directamente
Dimensions	H 49 cm

Descripción

The Anglepoise Original 1227 Lamp with Desk Clamp can be mounted on tables and shelves. The clamp is suitable for tables with a thickness of 1 cm to 6 cm. As with many other Anglepoise lamps, this lamp also has the tension spring technology developed by George Carwardine, which allows the articulated arm to be readjusted at any time. Thanks to this tension spring technology, the clamp lamp retains every set position. The lamp shade can be individually rotated and tilted. The Original 1227 Lamp with Desk Clamp is available in jet black, dove grey, linen white and bright chrome. The articulated arm and lamp shade are made of aluminum, the clamp made of cast iron. By using an additional neat cable clamp, the on/off switch on the supply line can be attached anywhere on the articulated arm of the lamp. Both compact fluorescent lamps and LED retrofit are suitable as light sources. A table base in the matching surface is included in the scope of delivery.
