Pin 1685

Oberfläche

- negro
- crema - blanco
- verde
- blanco

Technical details

País de la Fabricación	 España
fabricante	Vibia
diseñador	Ichiro Iwasaki
año	2016
protección	IP20
Volumen de suministro	LED
Proyección en cm	30
material	acero Inoxidable, aluminio, policarbonato, zinc
conmutabilidad	en el soporte de pared
LED	incluyendo
Indice de reproduccion cromatica	>90
El flujo luminoso en lm	970
Temperatura de color en grados Kelvin	2.700 extra blanco cálido
Diamètre de l'ombre	6 cm
El rendimiento del sistema	2 x 4,5 Watt
Montaje en pared Dimensiones	10 cm
Dimensions	H 70 cm

Descripción

The Vibia Pin 1865 wall lamp emits both direct and indirect light. The left horizontal arm directs its light downwards, the right vertical arm to the wall. The horizontal arm of the lamp can be rotated to side at an angle of 150 degrees. The head of the horizontal arm can be rotated about its own axis by 350 degrees. This head can also be raised by an angle of 45 degrees and lowered by 35 degrees. The head of the vertical arm can be rotated at a 45 degree angle in both directions. This head can also be tilted outwards by 45 degrees. This wall lamp is available in the following surfaces: white, black, green and cream-white. All surfaces are matt lacquered. There is an on/off switch on the wall mounting.

The Pin 1685 is a light with the horizontal arm on the left side. This version is suitable for an installation on the left side of the bed. Beside this left version there is also available a right version, the Pin 1686, with the horizontal arm on the right side.
