Descripción

The Vibia North 5600 is a floor lamp with two lamp shades of the same size. The light is emitted by both shades directly downwards. The design of Arik Levy is very elegant, innovative, dynamic and extremely flexible. The lamp arms are arranged in different angles. During installation, the lamp arms can be mounted in different positions in relation to each other. The height of the lamp shades can be adjusted even after installation. The lamp is available in the surfaces black, blue, white and beige. All versions are matt lacquered. The North 5600 floor lamp can be mounted with or without plug. A dimmer button is integrated in the centre of the base.
