Descripción

The Vibia North 5620 is a floor lamp with three lamp shades, which emit the light directly downwards. The three lamp arms are of different lengths and extended in different directions. With this innovative floor lamp, the height of the lamp shades can be individually adjusted even after installation. The light is available in the surfaces black, white, blue and beige. All surfaces are matt lacquered. The floor lamp can be mounted with or without plug. The light can be regulated via a dimmer in the centre of the base.
