

# Vibia

## Guise 2260

### Technical details

<b>País de la Fabricación</b>	 España
<b>fabricante</b>	Vibia
<b>diseñador</b>	Stefan Diez
<b>año</b>	2018
<b>protección</b>	IP20
<b>Volumen de suministro</b>	LED
<b>Profundidad en cm</b>	3
<b>Diámetro en cm</b>	54
<b>material</b>	aluminio, borosilicato
<b>longitud del cable</b>	300 cm
<b>Atenuación</b>	sensor dimmer
<b>Potencia en vatios</b>	10 W
<b>LED</b>	incluyendo
<b>Indice de reproduccion cromatica</b>	>90
<b>El flujo luminoso en lm</b>	445
<b>Temperatura de color en grados Kelvin</b>	3.000 blanco cálido
<b>Dimensions</b>	Ø 54 cm

### Descripción

With the Vibia Guise, Stefan Diez has discovered a new potential use for LED technology in contact with matter: The light emanates from the piece of glass, while the source remains invisible. With this approach Guise achieves a magical effect and at the same time is fully functional. Because of the transparency of the glass when switched off, the lamp almost disappears. When switched on, it expresses a luminous and almost magnetic presence.

The wall lamp version with a different formal expression features a glass disc that gives off a perimeter glow where the LED light source is also hidden. When turned off, it becomes fused with its background, when on, it evokes a solar eclipse. Vibia presents a wall lamp that integrates the LED light with the glass and making it pass through in such a way that it becomes invisible and then allowing it to appear out of nowhere. The Guise 2660 has a diameter of 54 cm.
