### Descripción

The Marset Soho 38 LED is a pendant lamp with a diameter of 38 cm. Its height is 20.4 cm. The lamp shade is made of polyethylene and is centrifugally cast. The diffuser made of white-opal methacrylate diffuses the light smoothly and glare-free. The light is emitted directly downwards. The pendant lamp is available in white, black and stone grey. The 200 cm long cable can be shortened if necessary. All versions except the white one are supplied with a black cable, the white version has a white cable. The canopy is 3.5 cm high and has a diameter of 11 cm. An on-site dimmable LED is integrated. The light is also available as a DALI dimmable version on request.
