

Serien Lighting

Curling Suspension Rope Acryl clear / cylindric opal S

Farbtemperatur in Kelvin

- Dim to warm
- 2.700 extra blanco cálido
- 3.000 blanco cálido

Technical details

País de la Fabricación	 Alemania
fabricante	Serien Lighting
diseñador	Jean-Marc da Costa und Manfred Wolf
año	2020
protección	IP20
Volumen de suministro	LED
materi al	aluminio, vidrio acrílico
ajuste de altura	altura determinada
Atenuación	dimmable con control de fase inversa y con reguladores de control de fase
Potencia en vatios	11 W
LED	incluyendo
Indice de reproducción cromática	>97
Dimensiones del dosel	8 cm
Diamètre de l'ombre	16 cm
Altura de pantalla	6 cm
reemplazo de la bombilla:	en el sitio mismo
altura total	15 - 195 cm

Descripción

The Serien Lighting Curling Suspension Rope Acryl clear / cylindrical opal S can be individually configured in its total height between 15 cm and 195 cm during installation. This Curling suspension lamp has a shade made of clear acrylic glass and a cylindrical reflector. The light is directed downwards and softly diffused all around by the reflector.

The pendant light Curling Suspension Rope Acryl clear / cylindrical opal S is available with a colour temperature of 2.700 Kelvin extra warm white, 3.000 Kelvin warm white or with Dim to warm function. The version with dim to warm function imitates the dimming behaviour of classic incandescent lamps, which is perceived as pleasant. Here, when dimmed down, the light not only becomes darker but also changes its colour temperature. Thus, the colour temperature changes from 1,800 Kelvin extra warm white to 3,000 Kelvin warm white when dimmed. The Curling acrylic lamp with steel cables is also available with a lamp shade that has a diameter of 22 cm.
